

OLED Pit Display (RLVBPITDSP)

The high contrast OLED Pit Display is the perfect partner to VBOX Pit Lane Timer to mirror the stationary countdown time. This is particularly useful within endurance racing where it is the job of the pit crew to safely release the car.

OLED Pit Display will mirror the information from the VBOX Pit Lane Timer only when stationary. It can be secured to the dash or one of the windows, facing outwards towards the pit crew. This will keep the team informed of how much time they have left in the pit lane and to know exactly when to release the car with minimal time loss.

Housed in a splash proof plastic and aluminium case, OLED Pit Display (RLVBPITDSP) connects to the coms port on the Pit Lane Timer via attached flying lead. OLED Pit Display includes in-built CAN termination.

Display Modes

OLED Pit Display has an internal accelerometer that flips the screen in accordance with the way it is mounted and can invert screen colours or display the font as a high contrast outline to match lighting conditions.

Features

- Helps to avoid pit stop penalties
- Minimises the time spent in the pits
- Prompts pit crew when to instruct driver to leave your pit box
- Easy operation: three buttons to scroll display screens and enter menus
- Motorsport Standard Lemo connectors
- Low power consumption: 1.5 W
- Multiple Mounting methods including via standard 1/4-20 UNC

OLED Pit Display (RLVBPITDSP)

Specification

OLED Pit Display with splash proof plastic housing (RLVBPITDSP)	
Compatibility and unit connection	<p>Designed to connect to VBOX Pit Lane Timer running firmware version 1.1.22 or later.</p> <p>Connect OLED Pit Display (RLVBPITDSP) to the coms port on the Pit Lane Timer using the 2 m flying lead.</p> 
IP Rating	IP64
Operating Temp	-40 to +70 °C
Power	1.2 W
Input Voltage	6-30 V DC
Dimensions	101 x 51.5 x 26.5 mm (excluding cable)
Weight	147 g (including attached cable)

Support	
Hardware	One Year hardware warranty
Software	Lifetime Support Contract: Valid for a minimum of 5 years from the date of purchase and limited to the original purchaser. Contract includes telephone/ email technical support provided by local VBOX Distributor and firmware/ software upgrades (where applicable).
